DCC Mobile Decoders

Part Number	Description	List Price
<u>851001</u>	MC1Z102 - N-Scale 2-function decoder available with a 6-pin NEM651 connector popular in many European models. This decoder will operate in DCC only.	€24.95
<u>851002</u>	MC1Z102SQ - N-Scale 2-function decoder that has an attached wire harness, or 'squid cable', making it easy to adapt to some Z, and most N-Scale models. This decoder will operate in DCC only.	€25.95
<u>852001</u>	MC1H102P8 - HO Scale Digital Decoder that measures 17 x 17mm and is a 2-function plug and play decoder suitable for use with a variety of models. It is manufactured with a NMRA compatible 8-pin 'direct-plug', and is designed to operate in DCC.	€19.95
<u>852002</u>	MC2H104AT- HO Scale 4-function decoder designed to replace the existing manufacturers light board in Atlas HO diesel models, some InterMountain Railway models, and those using a similar physical design. This decoder will operate in both DC and DCC.	€23.95
<u>852003</u>	MC2H104OP - HO Scale 4-function decoder that includes a 9-pin JST to 8-pin NMRA wiring harness and can be used in many DCC-ready models that have a NMRA 8-pin socket. This decoder will operate in both DC and DCC.	€23.95
<u>852004</u>	MC2H104P9 - HO Scale 4-function decoder manufactured with a 9-pin 'universal' JST wiring harness which is mostly used in older pre-DCC or brass models. This decoder will operate in both DC and DCC.	€23.95
